

NNECOS

EDUCATIONAL PROGRAM GRANTS

AS A CORE PART OF OUR EDUCATIONAL MISSION, NNECOS launched an educational program grant funding opportunity for member practices across Northern New England in 2016.

OUR GOAL WITH THIS GRANT is to make it easy to obtain funding for regional educational events targeting the gamut of cancer care providers including physicians, nurses and other critical allied health care providers, as well as programs geared to patients, their families, and the general public.

EXAMPLES of such events in the past have included visiting professorships, mini-symposia focused on a specific theme or topic, patient education symposia, and nursing education forums such as the OCN review course.

SUCCESSFUL APPLICATIONS will fund up to \$4,000 in support of the event including speakers or educators of your choosing. We will not be offering CME support for these events.

THE PROCESS IS STRAIGHTFORWARD. Follow the online link below to apply. NNECOS will award a limited number of educational grants (typical range between \$2,000 and \$4,000) in sponsorship of regional educational activities. NNECOS will accept requests for applications (RFAs) from NNECOS members and review applications on a rolling basis until available funding has been awarded.

IF YOU'RE INTERESTED in having NNECOS sponsor an educational opportunity, but don't know where to start, contact us at info@nnecos.org for assistance! We are here to help!
